PROJECTS

- **Peax Studio:** A fully responsive and modern portfolio website designed to display creative work in a visually appealing and organized manner. It allows users to easily manage their portfolio, showcasing their projects with a smooth and user-friendly interface. The design is optimized for both desktop and mobile devices.
  Technologies: HTML, CSS, JavaScript, Node.js, Express.js, React.js.

- **My Recipes:** A user-friendly recipe sharing platform that allows users to upload, view, and manage their recipes. The platform provides an intuitive interface for organizing and categorizing recipes, making it easy for users to find dishes.
  Technologies: HTML, CSS, JavaScript, Node.js, Express.js, MongoDB.

- **Kuyucu Metal:** A portfolio website designed to showcase personal and professional projects, with a focus on simplicity and accessibility. The site offers a clean and minimalistic design, ensuring that the content takes center stage.
  Technologies: HTML, CSS, JavaScript, Node.js, Express.js.

- **VidTube:** A video uploading and streaming platform where users can watch and share videos. The platform supports high-quality video uploads and provides a seamless streaming experience for users. It also includes features for organizing content into playlists and allowing users to comment on and rate videos, fostering engagement within the community.
  Technologies: HTML, CSS, JavaScript, Node.js, Express.js, MSSQL.

- **WatchMovie:** A platform for watching and uploading movies, providing a robust system for handling large media files. Users can upload, stream, and organize movies into custom playlists. The platform ensures high-quality video playback and includes features such as user ratings, reviews, and recommendations, enhancing the overall user experience and engagement.
  Technologies: HTML, CSS, JavaScript, Node.js, Express.js, MSSQL.

EDUCATION

Haliç University, Istanbul, Turkey   **September 2019 - August 2024**
Bachelor's Degree in Computer Engineering

SOFTWARE SKILLS

Programming Languages: C#, JavaScript, T-SQL, HTML, CSS

Frameworks/Libraries: React, Node.js, Express.js, .NET Core, Unity, Bootstrap, Redux, MVC, API, Redis , Google Cloud, Jest

Databases: Microsoft SQL Server , MongoDB

Development Tools: Visual Studio Code, IntelliJ IDEA, GitHub, GitLab, Postman, Swagger
